The 2012 AICEP issues by former Portuguese Colonies is highly sought after. Other than Cape Verde and Macau they are very scarce and hard to source, especially the issues from Sao Tome, Guinea Bissau, Timor Leste and Mozambique. Only a limited number of the Angolan issue have found their way onto the market. Limited printing, and a growing collector base caused the shortage. Although authorised by Angola, like most stamps issued by Angola at this time, it was not intended to frank mail.
