

ANGOLA

1975, National Reconstruction Tax, 1st overprint set.

Overprint of the 1968 Angolan Fiscal stamps to serve as a general revenue stamp for fiscal transactions toward civil war reconstruction. The issue consisted of 5, 10, 15, 20 (all four come in two types), 50, 100, 200, 500, 1000Kz. The 5Kz stamp was also used as a postal tax stamp on certain days of the year similar to the lower values of the Assistencia duty stamps. They could not do postal service in their own right. There is some debate as to whether the 10 and 15Kz stamps were used on mail. They are listed for postal service by Palop, These stamps were replaced the following year and so their short life makes them hard to find. The overprint was by INA (The Angolan National Press), Luanda.

1976. National Reconstruction Tax

A new set of duty stamps was issued in 1976 toward National reconstruction, printed by INA, Luanda. They are of common design symbolising agriculture and industry and were issued in different colours: 0.50, 1, 2, 2.50, 5, 10, 15, 20, 50, 100, 200, 500, 1000, 2000Kz. The four lower values of this new series of duly stamps served as a postal tax stamp for certain days of the year, as above. The .50 and 1Kz are easily sourced, but the higher value less so. The duty stamps did service until they were replaced in early 2000, as per yellow example right.

1980. The 1st National Congress of the MPLA

This set of stamp labels was Issued for the 1st National Congress of the MPLA in Luanda. They come in three value, 5, 20, and 100Kz and were printed by INA, Luanda. They were fund-raising stamps, with the 5Kz stamp used on mail in a similar way to an Assistencia stamp. Although listed by Palop, they were not an official postal issue and could not do postal service in their own right (even though creative examples exist!!!). These labels were printed by INA, Luanda - Imprensa Nacional de Angola
