4 individual 300Kz stamps in sheets of 10

1 1200Kz stamp in a miniature sheet

Quantity: Print on demand

Perforation: 13 by 13.25

STAMPERIJA AGENCY SERIES 2018

This series consists of 30 sets of 4 stamps and 1 miniature sheet. All 30 sets take the same form and were available as mint or CTO. The sets contain high value stamps which would not normally be used for postage. The cost to post a letter is 100Kz. The sets were printed to meet philatelic demand and were promoted by Stamperija at their stalls at Stamp Exhibitions throughout the world. The sets cover the usual thematic subjects for the topical collector, but are of little interest to an Angolan collector. The CTO examples serve well to represent this series of stamps and are not very expensive.

THE 30 SETS
